Easy-As! Business Software

Welcome!

If you are looking for a simple, smart business solution then Easy-As! is definitely your choice!

We offer a great, easy-to-use package that is backed by un-matched after-sales support.

If you are opening a new store or simply are not getting more out of your current software system, we can help relieve you of your troubles & save you plenty of money in the process!

Established in 2003, Easy-As! users around the globe are happy customers! We continually strive to extend our footprint in a very competitive market and at the same time, keep our loyal client base smiling!

Easy-As! Features

Easy-As! runs on MS Windows PC's & devices installed with XP, Vista, 7, 8, 10 – both 32bit and 64bit versions. It can be installed on multiple computers, connected to each other sharing the same data.

Basic features include : Full stock control, generate quotations, vouchers, gift cards, invoicing, clients file, debtors, creditors, loading of supplier invoices, SMS feature, lay-buys, waiting tables, touch-screen operation, barcode labeling – built-in barcodes generator, has an extensive reports range, adequate user security, biometrics support & a whole lot more.

Additional modules are also available:

- Repairs/workshop for jobcards – track repairs via barcode, view repair history.
- Restaurant/coffee shop module for waiting tables, running tabs – Touch screen ready.
- Invoicing mode for generating invoices and processing quotations.
- Grooming Parlour mode for booking in of animals for grooming, client records, notification via SMS.
- Pawn Shop mode for processing purchases & buy-backs.
- Beauty Salon module for daily therapist appointments, SMS'ing, stock control, etc.

Cost – Hardware

A computer running XP, Vista, Windows 7, 8, 10 is required. We can supply a quotation for this and any extra hardware, namely cashdrawers, scanners, slip printers, pole displays, biometric fingerprint readers, etc that you may require.

You are welcome to supply your own hardware provided it meets with our minimum requirements for the effective use of Easy-As!. Multiple computers (terminals) can be connected together via ethernet or wireless networks that connect & share data across the network.

Cost – Software

Lite/Retail version : This is the “non-modular version” of Easy-As! at R3500incl. For the basic retailer includes all the features necessary for operating a store. This version is the original flagship product without modules. Power packed with all the features you need for running your business.

Full version : Required for any of the additional modules. Server (backoffice or standalone) installation of R4500incl. This entitles you to regular updates & enhancements/features to the software & telephonic support.

Extra terminal software are charged at R950incl per terminal.

Both versions of Easy-As! are subject to an annual license/site fee of R950incl irrespective of how many terminals you have running the software. Consider this a cheap support fee! Free updates! Free telephone support!

We also offer a monthly (software only) rental option for R350 per terminal which also entitles you to free support and upgrades to the software.

Note: In the event of onsite support being required, then standard callout rates apply.

There are no contracts!

Typical sites include beauty salons, hardware stores, pet shops, lock smiths, stationary stores, computer retailers, bottle stores, cigarette shops, salons, mechanical workshops, cafés, bars & restaurants.

SEE OVERLEAF FOR A COMPREHENSIVE COSTING OF BOTH HARDWARE & SOFTWARE OPTIONS.
